

## 1. Confession

### Verse 1

Dear lord forgive me pain lives free  
Poisoning destroying  
My head Tried to get  
It quiet get rid Then I knew  
I got to confess clear the mess  
Nobody knows anger grows  
Bomb goes Boom soon  
Why I Had enough tough  
I remained tamed  
The beast I now release  
Peace by peace  
Story comes out  
Now? bye Lies Ties  
I cut What (whut)  
Was asleep Like sheep  
Went along with the song  
I found lie my  
Potential mental  
Way better then ever was told  
Hold on depression sets in  
Hi friend we meet again  
Ready the pen tail of man  
Broken bruised used  
Art to vent his heart

## Verse 2

Smiling lately Shit is crazy  
Didn't do shit You did  
Dig in the dirt From birth  
Till now Oh wow  
This is bad my dad  
My mom so long  
Kept me small see it all  
I'm sad mad  
Defeated see it  
Hurts admit Fire lit  
It's clear fear  
Control Is all  
I get accept  
No longer bumner  
A war for  
Freedom reason  
Album is here a tear  
I drop this spot  
Breaks makes  
Me bitter didn't lift a finger  
Masterpiece by tragedies  
Issue song went on  
Till complete a deed  
A mission listen  
No joy inside make things right decide  
To state agony faith

### Verse 3

Burden of my chest finally I rest  
Working everyday Keep critics at bay  
They say hey  
May Cross a line with rhymes  
Involving your fam Fuck all man!  
Am I supposed to Keep quiet?  
Do explain pain  
I kept hidden In prison  
Set it free honestly  
They Don't press play?  
Say! Getting too close? a dose  
Of reality insanity  
At night fight  
The tears The fear  
Of death upset  
Puppet in the closet  
All I am to them  
So they get to know  
I tried To cry inside I died  
Hurt won't see within me  
Scars fresh start  
I'm done Being victim your son no longer run  
Feet steady ready  
My confession

## Chorus

Everything I say comes straight from the heart No saint did my part  
Didn't want to die so I  
Show you everything begin  
To end here I stand  
My confession
