

14. Find Peace

Verse 1

Feel weird now final song disappear and gone
Drastic measure pressure
Always there aware
Can't fail nail
The verse they feel the words Heal the curse
Wounds gashes masses
Know me well Tail I tell
Thanks sure a blur
Empty done! begun
To record sort
my brain Get rid of the pain I'm sane
last track is a drag
Stare at the screen fuck a sixteen!
Urge to rhyme design
Gone did it wrong
All is clear from tears fear
To victory within me I see
mistake I made This cd great
Passion destroyed void

Chorus:

So this is it the last time I speak on this history of mine
A chapter I close To my feet I rose
Finally I'm free find my peace
Its over now

Verse 2

Still hard to imagine laughing
Now wow
So of track wanted to scrap
Delete say defeat
negative energy eventually
family didn't see or be
Around I cast them out
Friends they worry telling me this cd
Will scar the hearts
Of mommy daddy clearly but tell me honestly
Out of line? shoes of mine
Wear them a day and you may
start to get I'm upset
Because I felt my Potential grow mental blow
The want me to be
A person im not tough spot
want out
Don't mean to hurt for what its worth
Chose this way to say
who I am
Stay leave just want to sleep

Chorus:

So this is it the last time I speak on this history of mine
A chapter I close To my feet I rose
Finally I'm free find my peace
Its over now

Verse 3

Fans dedicate this section to you got to mention
The comments likes Yeah watery eyes
Cause I don't deserve complementary words
Bragged and teased to find peace
Validation aching
Yet what I get
Never quit your words hit
Home sound so grown
I'm humbled thankful
My family We disagree
That's fine never spit a rhyme
To hurt my words
a sign For new times
In my heart music is part
Of me honestly
For now I'm gone so long
Release the stress peace and rest
Is what I need breath at ease

Chorus:

So this is it the last time I speak on this history of mine
A chapter I close To my feet I rose
Finally I'm free find my peace
Its over now
